October 21, 2012

PS Safety & Risk Management, LLC has been the safety consultants for **Garcia Roofing and Sheet Metal** for several years. During that time we have implemented safety policies, procedures and training requirements that set them apart from their commercial and residential competitors.

We conduct training for all employees before they are allowed to work on a project, and follow up with weekly safety meetings and job site inspections to ensure compliance. **Garcia Roofing and Sheet Metal** has a strict disciplinary action program that is 100% backed by Senior Management which enforces removal of an employee from a project for safety violations.

With my 30 years' experience in construction safety (see bio at pssafety.net), and an experienced professional staff, we have provided our clients with a safety service that allows their customers to enjoy a safe and healthy jobsite. We not only train the workers about their safety, we implement policies that protects their customers and/or people who may be in that area.

Please feel free to contact me at any time with any questions you may have.

A handwritten signature in cursive script that reads "Peggy Sellers".
